

Hello. My name is Kai Pei. I love being an entrepreneur and I've created several companies from scratch over the last decade.

I'd like to take a moment to share my incredible experiences working with Roberta Eastman.

I started working with Roberta over a year ago. She has been nothing short of miraculous as a business coach and mentor.

Roberta helped with my own personal development and growth as a leader while we tended to the growth and success of my organization.

Within the first seven months of our company launch date, Roberta had helped me formulate and implement the necessary business strategies that led to our company grossing over \$700,000 in revenue. We acquired over 3,500 clients within 8 months of our company opening its doors for business.

Under Roberta's coaching and tutelage, I was able to successfully build a company with two sales teams in two different states.

I utilized Roberta's approach to strategic planning and implementation and helped our sales teams grow our customer base at a rate of over 400% within the first 4 months.

Our company flourished and prospered under Roberta's guidance, proven business principles and astute leadership.

More importantly, Roberta helped us create a fun and uplifting work environment and company culture based on sound business philosophies and solid core values.

Building a company takes a lot of time, energy and hard work. I simply can't imagine achieving our huge levels of success without having Roberta at the helm, showing us the way, especially when times got tough.

Let's face it, building a business will always have its own unique set of challenges. I feel that Roberta's skill at helping me maximize my potential as a business leader is truly indispensable and crucial to helping me achieve my business goals.

Roberta is phenomenal at what she does; helping her clients become the best version of themselves. She is a true leader amongst us. Anyone interested in building a successful business owes it to themselves to work with Roberta.

One last thing I'd like to share. I was wary and unsure of what I was looking for when I first started searching for a business coach. I interviewed numerous individuals and companies alike that offered business coaching of some sort.

I decided on Roberta because she helped me feel really comfortable in my own skin. She helped me discover the potential within me that I didn't even know was there. She pushed me to grow. She helped me challenge my own limits so that I could come out the other side a stronger leader and a better person.

I'll just sum it up by saying, "I'm proud and honored that I've had the opportunity of working with Roberta Eastman. She is truly one of the most incredible people that I have ever had the pleasure of knowing."
